

Hacking the Bomb: Cyber Threats and Nuclear Weapons (Hardback)

By Andrew Futter

Georgetown University Press, United States, 2018. Hardback. Condition: New. Language: English. Brand new Book. Are nuclear arsenals safe from cyber-attack? Could terrorists launch a nuclear weapon through hacking? Are we standing at the edge of a major technological challenge to global nuclear order? These are among the many pressing security questions addressed in Andrew Futter's ground-breaking study of the cyber threat to nuclear weapons. Hacking the Bomb provides the first ever comprehensive assessment of this worrying and little-understood strategic development, and it explains how myriad new cyber challenges will impact the way that the world thinks about and manages the ultimate weapon. The book cuts through the hype surrounding the cyber phenomenon and provides a framework through which to understand and proactively address the implications of the emerging cyber-nuclear nexus. It does this by tracing the cyber challenge right across the nuclear weapons enterprise, explains the important differences between types of cyber threats, and unpacks how cyber capabilities will impact strategic thinking, nuclear balances, deterrence thinking, and crisis management. The book makes the case for restraint in the cyber realm when it comes to nuclear weapons given the considerable risks of commingling weapons of mass disruption with weapons of mass...
